

Winter is unpredictable. Be prepared!

NORD❄️FROST VAN 2

The NORD❄️FROST VAN 2 is designed to tackle even the most extreme winter conditions safely and reliably.

Optimized for demanding VAN use, improved cut and puncture resistance increases mileage.

NEW

Winter is unpredictable. Be prepared!

Highlights

Ice grip

Grip icy roads reliably. The new ice reservoir and longer trailing edges of the stud increase the braking power and ensure short braking distances. The combination of all the newly improved Gislaved stud technologies provides driving comfort and safety on icy and snowy surfaces.

Snow traction

For loaded VANS snow traction is essential. The new Nord Frost Van 2 with its aggressive tread pattern and innovative snow catchers offers excellent traction and stable steering even on the most challenging winter roads.

Aquaplaning

Be safe on wet roads in winter. The effectively designed pattern removes water and slush between the tire and the road. Improved wet braking stability thanks to our newly developed Gislaved slopes gives you confidence on your journey.

Tyre dimensions:

Speed index: **Q/R/T**
 Rim size in inches: **14 – 17**
 Tyre widths in mm: **185 – 235**
 Tyre cross section: **75 – 55**
 EU tyre label: **D-E / C / 73 B**

LI = Load index
 SI = Speed index
 Q = up to 150 km/h
 R = up to 170 km/h
 T = up to 190 km/h
 * = Studded tyres

Performance Diagram

— NORD FROST VAN = 100 %
 — NORD FROST VAN 2

EU tyre label categories:

Q³ = Fuel Efficiency, Q² = Wet Grip,
 dB = Value in decibels, Noise = Noise,
 △ = Snow Grip, △ = Ice Grip
